

Registering and Reloading Gift Cards

Great Lakes Scrip Center, the company we purchase our gift cards offers a growing list of reloadable gift cards. Reloading gift cards is convenient because they're fast (usually reloaded within 24 hours from time of release), you get full donation credit (sometimes increased rebates for reload specials), and you aren't throwing away gift cards when empty.

Go to www.shopwithscrip.com. Click on "Shop," click on  Reload. Click on  "View the Reload FAQ's." This contains great information on reloading gift cards and has the current list of reloadable cards available.

Please keep in mind that only cards purchased from the U Prep Scrip Program are eligible for reload and those cards must be reloaded through U Prep Scrip not in the store.

Instructions to Register and Reload Gift Cards

Log onto www.shopwithscrip.com **Username: AnExample**
(no spaces, case sensitive)

Password: exam1136

For security, it will ask you some questions. Please change your password.

Click on "**My Account**" click on  Reload (left side).

Select the card you would like to register, for example, Safeway.

The Safeway Gift Card Reload order page will come up. Type in Card # and give your card a name. This is handy if you have more than one card you reload. Click "Register Card" and you are done.

The cool thing about card reloads is that I can release a card reload anytime during the month. No waiting around for the big order deadline. Once you place your reload order, print a copy, attach a check and send it into the office. If you email me a heads up, I know I need to look for a check. Checks are made out to U Prep Scrip and will be deposited as soon as they are received. Once I receive your payment I can release your reload order (reloads take 24 hours from the time I release your order depending on weekends/holidays and you will receive an email when the card has been reloaded.)

If you sign up for Presto Pay (debit card payment option) this process is even faster. You order, GreatLakesScrip.com debits your account and you have your card reloaded in 24 hours. With this option, you don't have to wait around for me to deposit the check and release the order, it's done automatically.

Note: Because reloads are processed differently it is important to keep them on a separate order. I can release a reload order anytime, but if you have regular physical gift cards on the same order, I have to wait until one of my regular order dates to release it.
